Subject: Riverview Energy Center PSD modeling file request

Hi Mark and Cody,

We'll be reviewing the PSD permit for Riverview Energy Center, permit number 147-39554-00065. As part of the review, I will be reviewing the air quality analysis. Will you please send me the modeling files for this permit? Also, if it's already available in VFC, can you tell me which document number corresponds to the most recent modeling report?

If you choose to email the files, I ask that you change the extension of files to a non-compression extension. Unfortunately, our system automatically deletes files ending in common compression formats (zip, gz, 7z, etc.). If you change them to .piz or some other non-executable/non-compression extension, that should avoid the filter. We're also limited in file size to somewhere in the neighborhood of 10 MB or so, so smaller files will have a better chance of arriving. I can also accept the files through other methods as well (mail, FTP if you have access to one, etc.), so let me know if you'd prefer to use a method other than email.

Thanks for your help.

Thanks,
Michael Langman
